

Peak performance is within reach

RUG Potential puts you in the driver's seat for the best care decisions and most accurate reimbursement.

Our RUG Potential tool lets you see the impact of missed opportunities and inaccuracies using your own data. This tool matches documentation with clinical records and highlights inconsistencies which may affect care planning, RUG scores, and ultimately your reimbursement. So take a glimpse into the future to improve your team's awareness and potential for providing the best possible care. **Visit ehds.biz/rugpotential to learn more.**
